

**IS YOUR HOME
POISONING
YOUR CHILD WITH
LEAD?**

**IF YOUR HOME WAS BUILT
BEFORE 1978,**

there's a good chance that it contains lead paint. Lead is a poison, and a child who eats lead paint chips, or breathes lead paint dust can get very sick. Your child could be poisoned already and you might not know it. Please call 712-5500 for help. It's free and easy.

WIPE OUT LEAD.

WIPE OUT LEAD.

KEEP YOUR CHILDREN **SAFE.**

- **Take your children to the doctor and have them tested for lead.**
- **If you don't have a doctor, call our number for help 712-5500.**
- **Having your child tested is the only way to know if they have been poisoned with lead.**

WIPE OUT LEAD.

PROTECT YOUR FAMILY.

Please call 712-5500 for help. In the meantime here are some things that may help:

- **If you rent, tell your landlord about peeling or chipping paint.**
- **Clean up paint chips.**
- **Clean floors, window frames, window sills, and other surfaces weekly with warm water and soap.**
- **Make sure to rinse sponges and mops after cleaning dirty or dusty areas.**
- **Wash children's hands often, especially before they eat and before nap and bedtime.**
- **Keep play areas clean. Wash bottles, pacifiers, toys, and stuffed animals regularly.**
- **Keep children from chewing on window sills, or anything that is painted.**
- **Make sure your children eat well. Kids with a good diet absorb less lead.**
